Subject:

**Adopt-A-Stream Foundation  
Letter of Support and Matching Fund Donation**

Dear Recreation and Conservation Office,

I am writing this letter in support of the SRFB grant proposal titled "Woods Creek in-stream Restoration Partnership" Prism project number 15-1131 that the Adopt-A-Stream Foundation is submitting.

Chinook Engineering recognizes stream restoration in Woods Creek as a high priority for salmon recovery. For that reason, I will provide match in the form of Civil Engineering Services donated to the project. This may take the form of letters or engineering drawings and details or onsite consultation.

Chinook Engineering has partnered with the Adopt-A-Stream Foundation on numerous successful LWD stream enhancement projects in the past. We hope to continue this partnership in the Bear Creek Watershed with the support of this funding.

Thank you for considering this proposal!

If you have any further questions please feel free to call me at my office at 360-678-4747.

Sincerely,

Jay S. Kidder, P.E.

Civil Engineer and Fisheries Biologist  
Principal
